Storm and Emergency Preparedness

The City of Sausalito and the Southern Marin Fire Department are committed to preparing for natural and manmade disasters in order to provide the best possible service to our community. A significant 5-day storm is approaching. Strong wind and rain is expected. According to the National Weather Service, severe thunderstorms will occur during the next two days, followed by rain for the rest of the week. See below for various sources of information.

In the event of an emergency or natural disaster, it is very likely that police, fire, and public works crews will be very busy. Therefore, it is important that all residents take the necessary steps to be informed on how to care for themselves and their families during these events, especially the first 72 hours. It is also very important to be acquainted enough with your neighbors, especially our seniors, to recognize when something does not seem quite right and to be prepared to help each other.

If you have any questions, please do not hesitate to call the Sausalito Police Department, the Southern Marin Fire Protection District, or the Sausalito Department of Public Works.
