Subject: RE: Request for Recommendation by Housing Elements Task Force

Good Day, Lilly. Please convey to the Task Force Committee, and especially the Chairman, my sincere appreciation for the openness with which the meetings have been conducted, and the very generous time allotted for public comment. I'm sure all neighbors who attended the meetings would echo this sentiment.

I would like to ask the Task Force Committee whether they might be willing to recommend to the City Council (when they make their final report), that all sites dropped from consideration be declared permanent City Open Space.

This would alleviate future reconsiderations and rehashing of the same issues, perhaps with different task force committee members who would perhaps be unfamiliar with the background behind these sites being removed from consideration.

Also, my thanks to you and staff for your excellent and patient work in moving the Housing Element process to a conclusion.

Sincerely,

Walt Freedman 20 Marin Ave.
