RE: Gate 6 Road Intersection Improvements

The City of Sausalito would like to invite you to the November 21, 2016 Pedestrian and Bicycle Advisory Committee meeting for an update on the Gate 6 Road Intersection Improvements Project. During the meeting project representatives will share an overview of the final design developed in direct participation with the community and the adjacent property owners Caltrans and the County of Marin. To learn more about the project and the process leading up to the final design, please visit the project webpage at <http://tinyurl.com/jry8v4y>.

City staff and representatives will present the design at the Pedestrian and Bicycle Advisory Committee Meeting. You're invited to attend:

What:	Presentation of the Gate 6 Road Intersection Improvements Design
When:	Monday, November 21, 2016
Time:	7:00 PM
Where:	Pedestrian and Bicycle Advisory Committee Meeting City of Sausalito Council Chambers 420 Litho Street Sausalito, CA 94965

This project was identified as a result of the Ferry Landing to Path Plan approved by the Sausalito City Council in 2011, and was designed after the City Council authorized submittal of a grant application in November 2010 and awarded a contract in 2013 for a project in collaboration with Marin County and Caltrans to reduce conflicts between cyclists, pedestrians and motor vehicles, especially at the northeast corner of the intersection where the bicycle path ends. The project will add bicycle detection and crossing-time for southbound cyclists coming from the Sausalito-Mill Valley Multi-Use Path going to Bridgeway. It also includes pavement rehabilitation, new vehicle detection and signal modifications, a redesign of the path approach at the northeast corner of the Bridgeway/Gate 6 intersection and sidewalk and curb ramp improvements at the Bridgeway/Ebbtide intersection.

The final design plans may be viewed from the following internet link: <http://tinyurl.com/jry8v4y>

Plans will also be on file at the Sausalito Library Reference Desk.

If you have questions regarding the project or meeting, please call Administrative Aide Katie Laufman at 415-289-4106. Should you receive a voice message please specify a time and telephone number that is most convenient for a returned call. Effort will be made to return the call within one business day. Thank you for your consideration.

Sincerely,

Jill Barnes, PE
