SAN FRANCISCO BAY AREA CLEAN BOATING MAP

Includes Marina Directory

IMPORTANT PHONE NUMBERS

Emergency Telephone System 911

BAY AREA MARINE PATROL NUMBERS

- Alameda County (510) 563-2940
- Contra Costa County (925) 427-8507
- Marin County (415) 499-7233
- Napa County (707) 253-4637
- San Francisco City & County (415) 252-2013
- San Mateo County (650) 952-0808
- Santa Clara (408) 299-3870
- Solano County (707) 580-4977
- Sonoma County (707) 433-0728
- 24 HOUR VESSEL ASSISTANCE (800) 367-8222 (Fee involved)
- U.S. COAST GUARD (415) 399-3530
- DEPT. OF FISH & GAME (888) DFG-CALIFP "Californians Turn in Poachers and Polluters" (334-2258)
- REPORT ENTANGLED OR INJURED WILDLIFE Marine Mammal Center (415) 289-7325 International Bird Rescue Research Center (707) 207-0380

REPORT OIL AND CHEMICAL SPILLS

- Call both response numbers below
- CALIFORNIA OFFICE OF EMERGENCY RESPONSE (800) OILSP11 (645-7911)
- NATIONAL RESPONSE CENTER (800) 424-8802

MOBILE BOAT-TO-BOAT SERVICES FOR BOATERS

- Bay Green Marine Sanitation Services (415) 621-1393
- Head Honcho Mobile Marine Pumpout Service (925) 429-4490
- Marine Lube (877) 748-2244
- MT Head Marine Sanitation Service (650) 483-5689
- Seashine Boat Cleaning and Maintenance (510) 428-2522
- Septic Brothers Marine Pumpout Services (209) 329-7771 / (209) 329-0768

HOUSEHOLD HAZARDOUS WASTE (HHW) DISPOSAL FACILITIES IN THE BAY AREA

These facilities serve local residents and their counties. Please call to confirm service area and hours of operation. Visit www.earth911.org or call 1-800-CLEANUP for a more comprehensive list of HHW collection facilities and services.

This map is not intended for navigational purposes and is not a comprehensive map including all the marinas in the San Francisco Bay Area. Some marinas are excluded due to lack of information or request for anonymity.
 Thank you to Baykeeper | This map was originally produced and printed by Baykeeper • www.baykeeper.org • (415) 856-0444
 Cartography by Pease Press • Brochure design by Ohiro Design and Illustration
 Printed by Craft Press with soy-based inks on New Leaf Sakura Silk, made from 100% post-consumer recycled waste and processed chlorine free. This map is recyclable

PROTECT YOUR PLAYGROUND WHAT YOU CAN DO TO PREVENT POLLUTION

PREVENT OIL AND FUEL CONTAMINATION

Oil, fuel and other petroleum products are considered to be toxic to human health and aquatic life. Help prevent pollutants from entering the Bay by practicing preventive engine maintenance and by using oil absorbents.

LOOK ON THE MAP FOR MARINAS WITH THESE ICONS:

- Used Motor Oil Collection Center
- Absorbent Exchange Program

Spill Proof Your Oil Changes and Recycle Used Motor Oil

- ↓ **PREVENT DRIPS AND SPILLS** by using oil-only absorbents to catch spills and drips from the nozzle, air vent, and fuel filler fitting.
- ↓ If you change your own oil use a closed system—a portable vacuum oil change pump that drains into a container that is closed to prevent spills during transfer of oil (available at most marine supply stores).
- ↓ **DO NOT MIX USED MOTOR OIL WITH ANYTHING.** Keep it separated for recycling.
- ↓ Recycle used motor oil and oil filters at a used oil collection facility or marina providing this service. See on the map for locations near you.
- ↓ **NEVER USE SOAPS OR DETERGENTS TO CLEAN OIL OR FUEL THAT HAS SPILLED!** Adding soap is **ILLEGAL** and contaminates the water.

Prevent Pollution From Your Engine

- ↓ Practice preventive engine maintenance. Keep the engine well tuned and operating efficiently.
- ↓ Choose Coast Guard-approved alcohol-resistant fuel lines.
- ↓ Avoid using solvents or toxics chemicals to clean engine parts. Use mechanical means (such as hand-scraping caked oil) or less toxic solvents (water-based). **DO NOT LET SOLVENTS RUN INTO THE BILGE.**
- ↓ Transfer and remove fluids with care using funnels, pumps and absorbents to eliminate drips and spills.
- ↓ Use oil-only absorbents in the bilge to capture unexpected leaks.

Oil-Only Absorbents

Absorbent Sheet Absorbent Pillow Absorbent Sock

Image source: Keep the Delta Clean Program

- ↓ Use oil-only absorbents in the bilge to capture small leaks and drips from your engine. The absorbents will capture oil before the bilge pump discharges it into the water.
- ↓ Oil-only absorbents absorb oil while repelling water and are the least expensive method boaters can use to control oily discharge.
- ↓ **PRECAUTIONS** | When using absorbents in the bilge, secure them to prevent clogging or fouling the bilge pump and the bilge pump float or sensor. Oil and fuel are flammable. Keep oil and fuel-saturated absorbents away from heat, sources of ignition and in a well-ventilated area.
- ↓ **OIL ABSORBENT EXCHANGE PROGRAM** | Look for the marinas on this map with this icon that actively distribute and collect oil-only absorbents for free as a way of reducing oil discharges from boats.

SAFELY DISPOSE OF HAZARDOUS WASTE

Boaters use many products to clean and maintain their boats. Many cleaning and maintenance products are by law considered hazardous waste once they are no longer needed, such as used motor oil and oil filters, antifreeze, all batteries, oil/fuel-saturated absorbents, solvents, paints, zincs, varnishes, cleaning products, fluorescent lights, and propane tanks.

TO CONVENIENTLY AND SAFELY DISPOSE OF USED MOTOR OIL, OIL FILTERS, OIL ABSORBENTS, AND MARINE BATTERIES, LOOK ON THE MAP FOR MARINAS WITH THESE ICONS:

- Used Oil Collection
- Oil Absorbents
- Bilge Pumpout
- Used Oil Filter Collection
- Marine Batteries

- ↓ The use of the products listed above can result in spills and leftover products that require safe disposal. Avoid products with ingredients known to cause cancer or reproductive harm as listed in California's Proposition 65: http://oehha.ca.gov/prop65/prop65_list/Newlist.html. Then click on "A complete updated Proposition 65 list." Identify products containing these ingredients and seek safer alternatives in Cal Boating's "Clean Boating Habits" booklet, page 6.
- ↓ **IT IS ILLEGAL TO THROW HAZARDOUS WASTE IN THE TRASH.**
- ↓ Hazardous wastes are toxic to human health and aquatic life and must be disposed of at a hazardous waste disposal facility. See *Household Hazardous Waste (HHW) Disposal Facilities in the Bay Area* panel on the other side of the map.
- ↓ Check stored products every six months and properly dispose of those that are old or unnecessary.
- ↓ Many HHW facilities offer **FREE DROP-OFF FOR RESIDENTS**. Call to confirm information and hours of operation.
- ↓ Contact your local garbage/recycling company to ask about free curbside used motor oil and filter collection services and periodic, one-day drop-off events.
- ↓ Recycle your zinc anodes at a local scrap metal recycler.
- ↓ Call 1-800-CLEANUP (235-2687), or visit www.earth911.org for more information and other hazardous waste disposal options in your area.
- ↓ Refer to www.senvironment.org for toxics reduction information and safer cleaning suggestions.

MINIMIZE SEWAGE IMPACTS

Over one hundred different intestinal pathogens such as viruses, bacteria and parasites can be found in sewage that may harm humans, wildlife and drinking water. Look on the map for Marinas that have sewage pumpout and port-o-potty dump stations.

LOOK ON THE MAP FOR MARINAS WITH THESE ICONS:

- Sewage Pumpout
- Port-a-Potty Dump Station

- ↓ It is illegal to discharge raw sewage within the navigational waters of the U.S. (an area that includes the entire San Francisco Bay and Delta and extends 3 miles seaward beyond the coast).
- ↓ Discharges of any kind, treated or not, are prohibited in Richardson Bay (a Federally-designated no discharge area).
- ↓ All boats with an installed toilet must have a Coast Guard-approved Marine Sanitation Device (MSD) if operating in US navigable waters.
- ↓ Visit www.dbw.ca.gov (Click on the Clean and Green tab) to find additional sewage pumpout locations near you.
- ↓ Avoid holding tank disinfectants and deodorizers that contain chlorine, formaldehyde or other components that can be harmful to aquatic organisms.
- ↓ To clean and deodorize the head use a mix of ½ cup of baking soda per half gallon of water, and sprinkle baking soda around the rim.
- ↓ Keep the "Y" valve properly secured in a closed position (use a padlock or wire tie) when navigating inland waters or less than three miles off shore to prevent accidental discharges.
- ↓ Consider using a mobile pump-out service. See list of mobile services on the back panel of this map.

PREVENT MARINE POLLUTION

- ↓ Stash your trash on-board in a designated trash bin and save cans, bottles, plastics and paper for recycling.
- ↓ Avoid plastic bags and carry a reusable canvas bag. Bring plastic bags to a supermarket for recycling.
- ↓ Remove product packaging at home. Pack your food in reusable containers.
- ↓ Cigarette butts are the most common type of litter found washed up on beaches and are not biodegradable. Place extinguished cigarette butts in the trash.
- ↓ It is illegal to throw plastics and garbage containing plastic overboard.
- ↓ It is illegal to dump any garbage overboard into the navigable waters of the state (including inland waters and up to 3 miles from shore).
- ↓ Take used monofilament fishing line back to a recycling bin at a participating boating facility. Visit www.coast4u.org (click on 'Boating Clean and Green') to identify a location near you. Or, send your monofilament fishing line directly to: Pure Fishing, 1900 18th St., Spirit Lake, IA 51360-1999, tel. (800) 237-5539.
