**ENCROACHMENT AGREEMENT FINDINGS
319 SAUSALITO BOULEVARD (ADR-EA 09-104)**

Pursuant to Zoning Ordinance 10.56.060 (Encroachment Review and Agreements), the Community Development Director recommends City Council approval of an Encroachment Agreement at 319 Sausalito Boulevard based upon the following findings:

- A) The proposed encroachment is compatible with the surrounding area and will either improve or not significantly diminish visual or physical public enjoyment of the streetscape upon which the encroachment is proposed.

The proposed encroachment will allow the applicant to help stabilize the upward sloping hillside along Sausalito Boulevard fronting 319 Sausalito Boulevard. The hillside is currently sloughing into the Sausalito Boulevard public right-of-way and is in need of stabilization. The proposed retaining wall will be constructed out of durable materials and is of a design that is commonly used in the general vicinity of the project site. Furthermore, the proposed improvements within the Sausalito Boulevard public right-of-way will not impede access and enjoyment of the streetscape upon which the encroachment is proposed because of the existing topography of the site.

- B) The encroachment will not adversely affect the usability or enjoyment of adjoining parcels nor create or extend an undesirable land use precedent.

The proposed encroachment runs parallel with Sausalito Blvd and does not impede the use of adjacent parcels.

- C) The encroachment is necessary to the reasonable use and enjoyment of the property and the extent of the encroachment is justifiable.

The encroachment along Sausalito Boulevard is necessary to stabilize the failing hillside fronting 319 Sausalito Boulevard.

- D) The proposed encroachment will not adversely affect the public circulation nor create or constitute a hazard to public safety.

The proposed encroachment will not affect access and circulation on Sausalito Boulevard.

- E) The value of the proposed improvements will not prejudice a policy decision to terminate the encroachment nor preclude or make difficult the establishment or improvement of streets or pedestrian ways.

The proposed encroachment is designed to address the current needs of the failing hillside. However, the improvements do not preclude the City Council from terminating the encroachment if the City Council finds improvements to the street are necessary. Any such street improvement would need to address the geology and integrity of the hillside and will be mitigated accordingly.

9. Condemnation. If the right-of-way is taken totally by condemnation, this Agreement shall terminate on the date of the taking with no compensation to Owner therefore. If a portion of the right of way is taken by condemnation, then this Agreement shall remain in effect as to the part not taken.
