Re: 2014-22 Regional Housing Need Allocation- Requirements to Form a Subregion

The fifth Regional Housing Needs Determination and Allocation (RHND and RHNA) process for the 2014-2022 planning period is scheduled to begin in January 2011. The Regional Housing Needs Determination and Allocation are mandated by State housing element law (Government Code Section 65588), which requires local governments in California to adopt a general plan for the physical development of the city, city and county, or county. The housing element is one of the seven mandated elements of the local general plan. Within the housing element, cities and counties are to demonstrate how the existing and projected housing needs of all economic segments of the community can be met. The intent of the law is to allow the private market to adequately address housing needs and demand, by requiring local governments to adopt land use plans and regulatory systems which provide opportunities for, and do not unduly constrain, housing development.

As in last RHNA cycle, in this upcoming RHNA period local governments will have the opportunity to form "subregions". According to state law, at least two or more cities and a county, or counties, may form a subregional entity for the purpose of allocating the subregion's existing and projected housing need for housing among its members. A subregion may include a single county and each of the cities in that county or any other combination of geographically contiguous local governments. All subregions need to be approved by the adoption of a resolution by each of the local governments in the subregion as well as by the council of governments.

Local governments choosing to form subregions will be responsible for devising the Regional Housing Needs Allocation methodology, which will be used to allocate the 2014-2022 RHNA to its members. ABAG will assign a subregional share of the Bay Area's total Regional Housing Need Determination to the subregion. The total Regional Need Determination is determined by the State Department of Housing and Community Development. The subregion's share of the total RHND is to be consistent with the distribution of households assumed for the comparable time period within the Regional Transportation Plan.

Each subregion would also be required to undertake the revision, appeal and final allocation process. The final subregional allocation would be submitted to ABAG for approval by the HCD. In the event the subregion fails to make the allocation or can not complete the allocation process within the state mandated deadlines, ABAG will be required to allocate the subregion's share of housing to the jurisdictions within the subregion, according to the regionally adopted method.

If there is interest in your community to form a subregion with your neighboring jurisdiction(s) please note the schedule below. **The deadline for forming a subregion is March 16, 2011.** All members of the proposed subregion will have to have resolution's confirming their participation in the subregion by this date.
