2011 Business Advisory Committee Goals

I want to thank Adam for asking this important question. Being a somewhat reluctant participant and newer member I revisited some recent history. In particular I re-read the WAM and H&DAC reports. I find myself humbled by seeing how much work and care went into these impressive reports. It is puzzling to me on how little progress has been made to get anything done in the direction provided by these imagine Sausalito reports.

It seems historically the BAC has focused a lot on the Waterfront and Marinship with good reason. My goals for the BAC would be:

- 1. Use the goals and recommendations (3.0) from the WAM report.
- 2. Help facilitate co-operation for private/pubic projects.
- 3. Help to attract and work with businesses that can succeed within those goals and recommendations.
