FIRE-SPRINKLER NOTES

1. Provide an approved automatic residential fire sprinkler system conforming to the provisions of the Southern Marin Fire Department and N.F.P.A. Standard 13.
2. The fire-sprinkler system is design/build by fire-sprinkler subcontractor.
3. Fire-sprinkler plans and calculations shall be prepared and submitted to reviewing agencies by the fire-sprinkler subcontractor/engineer at least 3 weeks prior to rough inspection. Submit 3 sets of plans and calculations to the Building Department for review by the Fire Department. Obtain Fire Department's and Architect's approval of plans prior to installing system.
4. Fire sprinkler coverage shall be provided through the entire structure as per the UFC 1001.9.
