

## MEMORANDUM

---

TO: Sausalito Planning Commission  
FROM: Sausalito Historic Landmarks Board  
RE: 105 Buchanan Drive APN 64-303-08  
DATE: September 16, 2015

### **Methodology**

Pursuant to City Council direction, it is the responsibility of the Sausalito Historic Landmarks Board to examine any remodel or demolition application in the City if the application involves a structure of fifty or more years of age. The Board assigns two members to review each project and to consider the gathered information and produce this report. Our report is not intended to replace or augment any technical reports pertaining to this project: any comments regarding structural integrity, engineering, etc., are purely observational.

### **Architectural Research**

At the request of the Planning Department, the Historic Landmarks Board conducted research into the history of the property at 105 Buchanan Drive to determine its historic significance.

### **Property Description**

105 Buchanan Drive is located in a residential neighborhood in the north end of Sausalito, close to Willow Creek Academy. The house is located on the west side of Buchanan. The lot size is approximately 7,440 square feet, with a living space in the current house of 1,400 square feet. The house is two stories with an attached garage fronting the street.

The house appears to be a wood frame structure with a single beam, slightly arched roof. The roofline has a slight overhang with exposed beams that run internally into the living area. The fenestration, organization and materials of the main façade are similar to the nearest neighboring houses on Buchanan. There is a series of large living room windows, a flat front door and siding of either a composite material or wood.

The house design is mid-century Modern character and neatly modest in design. The house is in keeping with design of other houses on the street which seem to part of a planned development by the Le Sand Corporation in 1960.

Historic photographs, original drawings and permit records of the house are not available. Therefore we cannot determine whether the building has been significantly modified from its original form.
